Instructor Ratings

The GSI's instructional activities, contributions, and/or feedback enhanced my learning. ("Learning" may include gaining mastery of course content and new skills, exposure to new methodologies and modes of critical thinking, and extending the ability to express oneself on the topics treated in the course.)

The GSI created an environment in which I could feel included (for example, encouraged multiple voices/perspectives, welcomed questions and critiques, responded to student feedback).

Office hours were too packed because he was only person on his day, — NOT HIS FAULT
I feel very lucky that I was in Dylan's lab. He is really great at explaining concepts, and I get a lot out of the mini lectures. I appreciate his patience in explaining concepts when I don't get it the first time. I also appreciate how he explains the math/proofs of certain concepts, like asymptotics. That helped me understand it better.
Successfully broken the student–teacher professional boundary. Dylan was always super kind and helpful.
Dylan was a fantastic TA. He was not only amazing at explaining and distilling concepts down, he was also a genuinely kind and understanding person. I always felt comfortable approaching him with questions about the content. I found his mini–lectures very engaging as well. I am really happy to have had Dylan as my TA for this class.
Understood my questions super quickly (thank you so much) and understood how to explain it to me in a way that I could grasp. Very effective help, and real understanding of the subject came out of it whenever I was helped by Dylan.
Keep doing what ur doing :D
The GOAT
Very clear explanations and guidance.

If you have additional comments regarding your experience around climate and inclusion in the classroom, please share them here

Enthusiastic & lively lab. Love it.
N/A
Dylan's presentations were by far the most helpful presentations for myself to actually code in the files. Others explained more conceptually, but Dylan gave great foundation to how those concepts connect in code and how to approach the subject for the day.
Very very amazing overall. One of my all time favorite GSI's :D
The most helpful GSI out of all. Did a great job at explaining the concepts and always took the time to make sure you understood.
Dylan ensures that their is an include and welcoming environment. Dylan ensure that students understand the material, by explaining conceptual concepts in different ways if students are confused. Dylan encourages to ask question and is patient when helping students making students fully grasp the material.
